---

**PROFESSIONAL PROFILE**

Field-proven IT Infrastructure Specialist with over 20 years of hands-on experience in network deployment, hardware diagnostics, and commercial support. I specialize in high-security environments and sensitive commercial infrastructure where technical failure isn't an option.

---

**PROFESSIONAL EXPERIENCE**

**Independent Commercial IT Specialist** | Tennessee & Kentucky *2019 – Present*

- Operate as a primary field engineer for national MSPs and direct commercial clients, executing high-stakes technical tickets in sensitive environments including healthcare facilities and correctional institutions.
- Directly manage end-to-end infrastructure projects and large-scale hardware deployments.
- Specialize in validating project scope and optimizing network design to reduce unnecessary material costs while ensuring maximum system efficiency.

**Owner & Lead Technician** | Garrison Tech Services *2014 – 2019*

- Founded, scaled, and operated a top-rated independent computer repair business.
- Built a profitable service business from the ground up, achieving market dominance in the local area through superior turnaround times and word-of-mouth referrals.
- Personally diagnosed and repaired thousands of machines and managed all P&L, inventory logistics, and marketing strategies.

**Telecommunications Contractor** | Indiana *2011 – 2014*

- Distinguished as a top-tier contractor capable of selling and installing service packages simultaneously.
- Managed end-to-end ISP installations, including pole climbing, line running, and in-home network configuration.

**Graphic Design & IT Consultant** | Grace Evangelistic Ministries *2004 – 2009*

- Directed the layout, design, and distribution of a bi-monthly newsletter for a large donor base.
  - Managed internal office IT infrastructure, ensuring uptime for administrative staff.
-

## EDUCATION

### Autodidactic Studies (Self-Taught) *Life-Long Learner*

- **Formal Education:** Departed the school system in 7th grade.
  - **The Real Story:** As a ward of the state of Tennessee, I learned early that if I wanted to know something, I had to teach it to myself.
  - **The Result:** I have "autodidacted" my way into every career I've ever held. I replaced a diploma with a library card, a logic-first mindset, and the ability to out-work and out-learn the standard curriculum.
- 

## PROFESSIONAL OBJECTIVE

### Ready for Long-Term Impact

After over two decades of successful independent contracting, I am seeking to transition into a dedicated, long-term role. At 45, I am operating at the peak of my technical capacity and possess the field-tested judgment that only comes from years of solving problems on the fly. I am looking for the right organization to invest my skills, work ethic, and loyalty in for the next major chapter of my career.
